

JAYESH SURESHBHAI JADAV

Frontend Developer — React.js / Next.js / TypeScript

Khambhat, Gujarat, India • jadav241198@gmail.com • +91 9054736628 • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Frontend developer with 3.5+ years of experience building and maintaining web and mobile applications using React, Next.js, and React Native. Experienced in developing reusable UI component libraries, optimizing frontend performance, and managing complex state using Redux Toolkit and TanStack Query in agile development teams.

TECHNICAL SKILLS

Frontend & Mobile: React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3

State & Data: Redux Toolkit, Zustand, TanStack Query, Context API, REST APIs

UI & Styling: Material-UI, Tailwind CSS, Ant Design, Responsive Web Design

Testing & Performance: Jest, React Testing Library, Code Splitting, Lazy Loading, Memoization, Vite, Webpack

Tools & Workflow: Git, GitHub, Jira, Postman, Firebase, CI/CD Basics, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer | Groovy Technoweb Private Limited — Aug 2022 to Present

- Built and delivered the frontend for **5+ production web and mobile applications** across fleet management, healthcare, and education domains.
- Created a shared library of **30+ reusable UI components** with React and Material-UI, reducing development time for new features by ~25%.
- Optimized page performance and Core Web Vitals by implementing route-level code splitting, lazy loading, and memoization to prevent unnecessary re-renders.
- Integrated **TanStack Query for server caching** and optimistic UI updates, cutting redundant network calls by ~35%.
- Wrote unit and component tests using **Jest and React Testing Library** to ensure high code stability across releases.
- Collaborated daily with backend developers and QA engineers in an 8-member agile team using Jira for sprint planning and bi-weekly deployments.

FEATURED PRODUCTION PROJECTS

Fleet Kaptan (Progressive Web App) — *React.js, Redux, Material-UI, PWA*

- Built a fleet tracking PWA with live operational dashboards, offline support, and role-based permissions for managers and operators.
- Implemented list virtualization and optimized state updates, reducing dashboard load times by ~20% for 100+ active users.

Oculabs (Healthcare Platform) — *React.js, React Native, REST APIs, Material-UI*

- Developed hospital admin web portal and patient mobile app to manage appointments, patient records, and lab workflows.
- Integrated REST APIs with structured error handling, loading skeletons, and token-based auth for secure access control.

Reanlo for Readers — *React Native, TypeScript, Context API*

- Developed a mobile reading app featuring smooth gesture navigation, dark theme support, and offline chapter caching.
- Implemented reading progress tracking and local persistence to provide a consistent offline reading experience.

EDUCATION

Master of Computer Applications (MCA) — G.H. Patel College of Engineering & Technology (2022)

Bachelor of Computer Applications (BCA) — G.H. Patel College of Engineering & Technology (Graduated)

LANGUAGES

English (Professional Working Proficiency), **Hindi** (Fluent), **Gujarati** (Native)
